

Project Demo Planning

Date	14 July 2026
Team ID	XXXXXX
Project Name	OptiCrop – AI Intelligent Crop Recommendation System
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the problem statement, objectives, and motivation behind OptiCrop.	2	Team Leaders single
2	System Architecture	Explain the dataset, machine learning workflow, Random Forest model, and application architecture.	3	Team Leader single
3	Live Feature Demonstration	Demonstrate crop prediction by entering soil and environmental parameters and displaying recommendations.	5	Team Leader single
4	Model Performance	Present model evaluation metrics including Accuracy, Precision, Recall, and F1-Score.	2	Team Leader single
5	Future Enhancements	Discuss possible future improvements such as weather API integration, fertilizer recommendation, and mobile deployment.	5	Team Leader single
6	Question & Answer Session	Address evaluator questions and explain technical implementation details.	2	Team Leader single

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the importance of AI in precision agriculture and crop recommendation.
2	Solution Overview	Present system architecture, dataset, preprocessing, machine learning model, and workflow.

3	Live Feature Demonstration	Demonstrate user input, crop prediction, recommendation results, and evaluation metrics.
4	Q&A Session	Answer evaluator questions regarding implementation, algorithms, deployment, and future scope.
